

FH-CeilingMountTrack - Double/Triple

CS TrackSystems are an innovative range of track systems designed for a multitude of sliding doorway applications.

CS FH-CeilingMount Track is designed to enable ceiling linings to be fixed flush with the underside of the track. This ensures the continuation of the ceiling-line through where the door slides. The track can also be painted on site to match the ceiling color.

FH-CeilingMountTrack is available as standard in a single, double and triple track configuration.
